

GULBALA SALAMOV

Senior Software Developer | Business Focused Technical Consultant

[E-mail](#) | [LinkedIn](#) | [GitHub](#) | [UpWork](#)

PROFESSIONAL EXPERIENCE

Senior Java Full Stack Engineer with experience building enterprise applications and internal tools in the **aviation** and technology domains. Proven background at **Turkish Airlines** developing production-grade systems using Java, Spring Boot, databases and Linux. Experienced in full stack development, system integrations, REST APIs, and containerized deployments. Strong focus on scalable business applications, and collaborative Agile development environments.

UpWork, Freelance

08.2024 -

Senior Java Full-Stack Software Developer & Business Consultant

- Provided business strategy and technical consultation for 5 startups from concept to production
- Built routing platform serving 100K+ users using GraphHopper + OSM
- Designed and developed production-grade backend & frontend systems using Java + Spring Boot
- Deployed scalable services using Docker, Linux, Nginx, AWS/VPS
- Implemented automated map update pipelines and geospatial data processing workflows

Turkish Airlines Technology, Türkiye
Java Full-Stack Software Developer

01.2023 - 06.2024

- Worked on the design, development and integration of backend (Java/Spring) and frontend apps
- Reviewed and maintained applications to meet new requirements throughout the software life cycle
- Provided workshops and technical supports to external customers regarding the usage of products
- Communicated between technical departments to identify and resolve urgent issues that critically impact business outcomes.

İBÜTEM, Türkiye

02.2022 -

Senior Java Full-Stack Software Developer & Researcher

- Writing high-quality product and API documentations
- Building IoT & Automation for medical devices using Java and MQTT Broker Integration
- Revising and improving scientific research publications

University College London, United Kingdom

04.2019 - 04.2021

Java / Android Developer & Researcher & Technical Writer

- Maintaining data collection app using Java and Android SDK
- Designing new UI interfaces
- Contributing to academic research and workshops

State University of New York, United States

06.2017 - 03.2019

Java / Android Developer & Researcher (Intern) & Technical Writer

- Writing technical content for Android programming text book
- Building interactive prototypes for university's mobile app

SIP, Azerbaijan

09.2015 - 09.2016

Web Developer & Business Analyst

- Building websites using WordPress, creating and managing content
- Communicating with clients, verifying their needs and proposing solutions
- Simplifying complex technical concepts with high-quality prototypes, use cases and diagrams to get feedback and improve the products

Middle East Technical University Foundation Schools, Türkiye
ICT Teacher (Intern)

09.2013 - 09.2014

- Teaching students to build algorithms by playing logic-based games
- Building simple apps using visual coding tools

EDUCATION

Swansea University, United Kingdom
 MSc, Computer Science

2014 – 2016

Middle East Technical University, Türkiye
 BSc, Computer Education & Instructional Technology

2010 – 2014

SELECTED PROJECTS

1. [Turkish Airlines Developer Portal](#) (2024): Platform providing access to Turkish Airlines APIs, helping developers integrate features like flights, availability, promotion, airport info into their apps.

- Designed, developed and integrated external and internal API's
- Maintained and developed production-grade backend and frontend apps
- Created API documentations

2. [Drive Weather App](#) (2025): Using GraphHopper Open Source Route Engine, I built an API with custom vehicle profiles such as truck and car that plan routes with options like avoiding tolls, motorways and ferry. The app presents weather and navigation across N.America

- 100K+ active users across North America
- Helps business to save monthly \$1000 by replacing Google Direction and Apple Map
- Automated map updates

3. [ScooterNav](#) (2025): Netherland's first Scooter navigation app. I built a custom scooter routing profile on a self-hosted GraphHopper engine that mirrors GraphHopper's commercial custom profile with a high precision

- 10K+ active users from Netherlands
- Replicated routing API and help the business save €1200 per year.
- Ensured routes follow scooter-legal roads while remaining efficient and safe

4. [SQL-PRACTISE.COM](#) (2024): Platform focused on realistic database modeling and querying scenarios. This project is dedicated to help professionals and students to advance their SQL skills. GitHub solution repo has 33 stars demonstrating its usefulness and popularity among developers.

- Designed relational database schemas and SQL exercises
- Demonstrated query optimization and performance tuning

5. [Community Maps](#) - €2.5M funded European Research Council Project (2020): Community driven platform for participatory mapping and sophisticated way to view, collect and edit data. I developed Android mobile app prototypes and contributed to scientific researches

TECH STACK

• Databases	: PostgreSQL, OracleSQL, MSSQL, CouchBase
• Backend	: Java, Spring, Spring Boot, REST APIs, Microservices
• Frontend	: Angular, PrimeFaces, GWT, JSF, CSS, HTML
• DevOps	: Docker, Linux, AWS, VPS, Jenkins, Nginx
• Testing	: JUnit, Mockito
• Documentation	: Markdown, Swagger/OpenAPI, ApiCurio, Confluence
• Domain Specialization	: Routing Engines, OpenStreetMap, GraphHopper, Nominatim, Photon

LANGUAGES

• Azerbaijan — Native	• English — Advanced
• Turkish — Native	• Russian — Good

CERTIFICATIONS & TRAINING COURSES

Google - Technical Writing for Engineers

Linux Foundations - Creating Effective Documentations for Developers

Republic of Turkey Provincial Health Directorate - First Aid (İlk Yardım)

PUBLICATIONS

1 - Android Sanatı - Mobile Application Development Book

(Gulbala Salamov, Volkan Gurbuz)

Level Yayın Evi (2017)

ISBN 6058382766

<https://www.kitapyurdu.com/kitap/android-sanati/434078.html>

2- A Novel Portable Nanotechnology Approach for Targeted Cancer Therapy

2nd International Symposium on Multidisciplinary Studies Innovative Technologies (2018)

Authors: Bunyatova, U., Kocum C., Haberal E., Asadullayev A., Salamov G.

<https://ieeexplore.ieee.org/document/8567302>

3. Technology of modelling of integrity and fuzzy model of knowledge - IFMK

2nd International Symposium on Multidisciplinary Studies Innovative Technologies (2018)

Authors: Bunyatova, F. K., Salamov G.

<https://ieeexplore.ieee.org/document/8566690>

4. New Strategy of Distance Education

Universal Journal of Educational Research, Horizon Research Publishing, USA (2014)

Authors: Bunyatova, F., Salamov, G.

http://www.hrpub.org/journals/article_info.php?aid=1578

5. Simulation Learning Based on Formal-Logical and Fuzzy Logics

6th International Computer and Instructional Technologies Symposium, Turkey (2012)

Authors: Bunyatova, F., Salamov, G.

https://www.peqem.net/Akademi/kongre_detay.aspx?id=137107

6. Logic of Integrity, Fuzzy Logic and Knowledge Modelling For Machine Education

5th International Conference on Application of ICT, Azerbaijan (2011)

Authors: Bunyatova, F., Salamov, G.

<https://ieeexplore.ieee.org/document/6110956>

7. Development of Swansea University Mobile Application

Swansea University Research Press (2014)

Master Thesis
